

The letters 'ISM' are rendered in a stylized, artistic font. The 'I' is a vertical, reddish-orange filamentary structure. The 'S' is a glowing, white, spiral galaxy. The 'M' is a cluster of numerous small, multi-colored galaxies (yellow, orange, blue, purple) arranged to form the shape of the letter. The background of the slide is a vast field of galaxies in various colors and orientations, creating a rich, multi-colored cosmic scene.

ISM

OF GALAXIES

**CONCLUDING**

**REMARKS**

# Have We Fulfilled the Objectives of the School

Training the next generation of ISMologists

# Have We Fulfilled the Objectives of the School

## Training the next generation of ISMologists

- Acquire a holistic knowledge of the field:
  - Observations, models and simulations;
  - Elementary physical processes and how to combine them;
  - What are the open questions.

# Have We Fulfilled the Objectives of the School

## Training the next generation of ISMologists

- ☒ Acquire a holistic knowledge of the field:
  - Observations, models and simulations;
  - Elementary physical processes and how to combine them;
  - What are the open questions.
